6th Helmholtz Diabetes Conference

September 26-28 2018 | Munich, Germany

Organizers

Prof. Matthias Tschöp, Helmholtz Zentrum München

Prof. Jens Brüning, Max-Planck Institute for Metabolism Research, Cologne

About the Conference

Our sixth, high impact conference brings again together international top leaders in the field of diabetes to facilitate the identification of, and potential solutions to, the preeminent scientific challenges facing the prevention and treatment of type 2 diabetes. Every year, this conference series integrates research reports on essential scientific questions in urgent need of a breakthrough. In 2018, we will focus on the role of the brain in the control of metabolism uncovering the cell type diversity and functional heterogeneity of hypothalamic regulatory circuits to allow dissecting, targeting and improving the CNS control of metabolism.

Sponsoring opportunities

There is a number of several packages to which you can direct your support. The following items are meant as suggestions. Of course we are open to any individual needs and demands.
